Delivered manufacturing records: exploratory paths through 2024

Full calendar-year extraction | 2023-2024 coverage and fields remain under supplier review

Activity = Manufacturing; all sources and statuses. Counts retain potential duplicate records.

China share uses all delivered records in each country-year. 2023 includes all supplied January-December rows.

Open markers and dashed lines indicate unresolved delivery coverage; they do not confirm population changes.

Project type and parent identity are absent in 2024. A comparable January-September table is provided separately.
